Welcome to the ePrescribing Toolkit for the NHS

Designed to support NHS hospitals in the planning, implementation and use of ePrescribing and Medicines Administration systems, the toolkit offers you tools, resources and information to help you every step of the way.

Put together by the [NHS](#) funded [ePrescribing Research Programme](#), the toolkit is aimed at NHS managers, IT specialists, doctors, nurses, pharmacists, allied health professionals and [patients](#). Find out more by visiting our [FAQ pages](#) or by clicking on the links below.

<h4>Planner</h4> <p>A series of mini 'How to' guides to support you at every stage of the process</p>	<h4>Case Study Showcase</h4> <p>Best practice showcase drawn from the Programme's case study sites</p>	<h4>Tools</h4> <p>Practical tools to estimate costs, evaluate safety and monitor user satisfaction</p>
<h4>Interact</h4> <p>Get in touch with us, or talk to suppliers, other hospitals and staff in your hospital</p>	<h4>Quick Reference</h4> <p>Key points to remember, potential pitfalls, top tips and FAQs</p>	<h4>News and Documents</h4> <p>Papers, reports, references, news and other key documents</p>
