Neonatal morbidity/mortality follow-up

This form relates to a baby who was part of the Birthplace cohort study. This study is designed to compare outcomes of births planned at home, in different types of midwifery units and in hospital obstetric units (www.npeu.ox.ac.uk/birthplace).

Our study records show that this baby was admitted to a neonatal unit and/or experienced significant morbidity. We now need further information about the baby whose details are given above. *Further guidance on completing this form is given on the inside of the front page.*

Instructions for the Birthplace	Local Coordinating Midwife:
---------------------------------	-----------------------------

Please complete the relevant stickers and attach to the front and back of this form.

tick here if the baby was admitted to a neonatal or paediatric unit. This form should be
completed by, or with the help of, a member of the clinical team on the admitting unit, with the
agreement of the clinical director for neonatal services

___ tick here if the baby was **not admitted** to a **neonatal or paediatric unit** – please complete this form yourself.

After completion, please:

- · Remove this front page and store securely with the Birthplace documents.
- Return the rest of the form to the Birthplace office using the Freepost envelopes provided.

Thank you

Instructions to the person completing this form

Please complete this form and return to the Birthplace Local Coordinating midwife (LCM). See back page for return address.

Please enter your name and contact details here in case the LCM has any queries.

Name: _____ Phone/email: ____

The LCM will check the completed form and remove the front page and all identifying details before returning to the Birthplace office. The front page will be kept in a secure location by the LCM in the Trust where this baby was born.

Thank you for your help.

If you have any questions about the form or about this study please contact:

- the Birthplace Local Coordinating midwife (LCM) whose address is given on the back page
 of this form; or
- · the Birthplace Project Manager

MREC reference number: 07/H0505/151

Definitions: Levels of neonatal care

Intensive care: for babies with the most complex problems, receiving any respiratory support via a tracheal tube and in the first 24 hours after its withdrawal; receiving NCPAP for any part of the day and less than five days old; below 1000g current weight and receiving NCPAP for any part of the day and for 24 hours after withdrawal; less than 29 weeks gestational age and less than 48 hours old; requiring major emergency surgery, for the pre-operative period and post-operatively for 24 hours; requiring full exchange transfusion, peritoneal dialysis, infusion of an inotrope, pulmonary vasodilator or prostaglandin and for 24 hours afterwards; any other very unstable baby considered by the nurse-in-charge to need 1:1 nursing; a baby on the day of death.

High dependency care: babies receiving NCPAP for any part of the day and not fulfilling any of the criteria for intensive care; below 1000g current weight and not fulfilling any of the criteria for intensive care; receiving parenteral nutrition; having convulsions; receiving oxygen therapy and below 1500g current weight; requiring treatment for neonatal abstinence syndrome; requiring specified procedures that do not fulfil any criteria for intensive care: care of an intra-arterial catheter or chest drain, partial exchange transfusion, tracheostomy care until supervised by a parent; requiring frequent stimulation for severe apnoea.

Special care: provided for all other babies who could not reasonably be expected to be looked after at home by their mother.

Normal care: provided for babies who themselves have no medical indication to be in hospital.

Section A: Neonatal or paediatric unit admission

1	. Was this baby admitted to a neonatal or paediatric unit for intensive care, high dependency care, special care or transitional care within 48 hours of birth? If No, please go to section B.	Yes No No
2.	Date of admission:	DD/MM/YY
3.	Type of unit	
	Neonatal unit	
	Other	
	If Other, please specify unit type:	
4.	How many days care did the baby receive at each level of care? Include part of any day as 1 day	
	Intensive care	days
	High dependency care	days
	Special care	days
	Normal care (including on postnatal ward)	days
	Total days:	days
See	definitions of levels of care inside front page of this booklet.	
5.	Did this baby have any respiratory support (ventilator or continuous positive airway pressure, CPAP) during their admission?	Yes No
	If Yes, for how many days? Include part of any day as 1 day	
	Total number of days receiving respiratory support	days
	Total number of days receiving supplemental oxygen	days
6.	Has the baby been discharged home?	Yes No
	If Yes, please give date:	DD/MM/YY
7.	What were the main reasons for admission?	
Se	ction B: Meconium aspiration	
1	. Was this baby diagnosed with meconium aspiration syndrome? If No, please go to section C.	Yes No No
2.	Date of diagnosis:	DD/MM/YY

3.	Did this baby receive ECMO during admission?	Yes No	
	If Yes, please give total number of days baby received ECMO:	days	
4.	Were any of the following diagnosed at any time during the baby's stay in the unit, in addition to the diagnosis of meconium aspiration syndrome? Please tick all that apply		
	Pneumonia		
	Pulmonary air leak		
	Pulmonary haemorrhage		
	Pulmonary hypertension		
Se	ction C: Encephalopathy		
1	. Was this baby diagnosed with neonatal encephalopathy? If No, please go to section D.	Yes No No	
2.	Date of diagnosis:	DD/MM/YY	
3.	What was the most severe grade of encephalopathy recorded?		
	Mild		
	Moderate		
	Severe		
4.	Was a specific cause of the encephalopathy identified?	Yes No	
	If Yes, please give details of any causes identified, in addition to presumed	perinatal asphyxia.	
5.	Did the baby have seizures requiring treatment?	Yes No	
6.	Was the baby treated with hypothermia (cooling)?	Yes No	
Section D: Seizures			
1	. Was this baby diagnosed with isolated seizures? If No, please go to section E.	Yes No No	
2.	Date of diagnosis:	DD/MM/YY	
3.	Was a specific cause of the isolated seizures identified?	Yes No	
	If Yes, please give details of any causes identified, in addition to presumed	perinatal asphyxia.	
4.	Was the baby prescribed medication to control seizures at any time?	Yes No	

Section E: Sepsis

1.	. Was this baby diagnosed with neonatal sepsis (proven or s If No, please go to section F.	uspected)? Yes No
2.	Date of diagnosis:	D D / M M / Y Y
3.	Clinical risk factors for infection:	
	Did the mother have a diagnosis of clinical chorioamnionitis?	Yes No
	What was the duration of membrane rupture prior to delivery?	days hours
		OR Not Known
	Was the mother known to be a carrier of GBS prior to birth?	Yes No
4.	Up to and including the 5th postnatal day, did the baby have?	
	A positive blood culture	Yes No
	If Yes, please specify organism:	
	Evidence of infection in CSF	Yes No
	If Yes, please specify white cell count:	
	Please specify organism:	
	A positive culture from another site (not blood or CSF)?	Yes No
	If Yes, please specify usually sterile site(s) and organism(s):	
	Bowel perforation or definite necrotising enterocolitis?	Yes No
	Chest X-ray changes consistent with pneumonia?	Yes No
Se	ction F: Cephalhaematoma	
1.	. Was this baby diagnosed with cephalhaematoma or subapo	oneurotic bleeding?
	Cephalhaematoma	Yes No
	Subaponeurotic bleeding	Yes No
	If No to both, please go to section G.	
2.	Date of diagnosis:	
	ction G: Cerebral haemorrhage	
1.	. Was this baby diagnosed with an intracranial haemorrhage of the section H.	? Yes No
2.	Date of diagnosis:	DD/MM/YY

3.	What kind of intracranial haem	orrhage was this?		
	Subdural haemorrhage			
	Subarachnoid haemorrhage			
	Intracerebral haemorrhage			
	Intraventricular haemorrhage			
	Other			
	If Other, please give details	:		
Se	ction H: Injuries			
1.		ith any of the injuries	listed below?	Yes No
	If No, please go to section I.			
	Date of diagnosis and cause. Ple	ease tick all that apply.		
	Injury	Data of diagnosis	Caus	e of injury
	Brachial plexus injury	DD/MM/YY		
	Fractured humerus	DD/MM/YY		
	Fractured clavicle	DD/MM/YY		
	Fractured skull			
	Other injury (give details)			
Se	ction I: Kernicterus			
1.	Was this baby diagnosed w	ith karnictarus?		Yes No No
	If No, please go to section J.	illi kolillotolas.		100 140
2.	Date of diagnosis:			DD/MM/YY
3.	What was the maximum SBR re	ecorded for this baby	?	µmol/l
4. Did the baby require an exchange transfusion?		Yes No		
5.			•3	100 110
Э.	How many days of phototheral Include part of any day as 1 day	by did the baby receiv	e r	days
Sa	ction J: Feeding dif	ficulties		
36	cuon J. Feeding un	licuities		
1.	Was this baby diagnosed w			
	admission to a neonatal or p	paediatric unit for 48 h	nours or more?	Yes No No
	If No, please go to section K.			
2	Data of diamas!			
2.	Date of diagnosis:			

3.	Did this baby require parenteral feeding?	Yes No
	If Yes, please give the total number of days:	days
4.	Did this baby require tube (orogastric or nasogastric) feeding?	Yes No
	If Yes, please give the total number of days:	days
5.	How was the baby being fed at time of discharge (or current method of feeding if not yet discharged)?	
	Please tick all that apply.	
	Intravenously	
	Naso-gastric	
	Oro-gastric route	
	Oral sucking feeding	
Se	ction K: Neonatal death	
1		Vee Ne Ne
	completed?	Yes No No
	If No, please go to section L.	
2.	Date and time of baby's death:	/ Y Y h h : m m
3.	Was this baby registered as a neonatal death?	Yes No
4.	If this was a neonatal death, where did the baby die?	
	Obstetric unit postnatal room	
	Alongside midwifery unit labour room	
	Alongside midwifery unit postnatal room	
	Freestanding midwifery unit labour room	
	Home	
	Neonatal unit	
	Paediatric unit	
	Other	
	If Other, please give details:	
5.	Has a cause of death been identified?	Yes No
	If Yes, please provide details:	
6.	Has a postmortem been performed?	Yes No

Section L: Other details For all babies: please check all sections and add any additional information that you think might be relevant regarding this baby's condition: Confirmation of significant neonatal morbidity or mortality 1. Have at least one of the outcomes listed below been identified for Yes No this baby? · Neonatal or paediatric unit admission (Section A) · Meconium aspiration (Section B) · Encephalopathy (Section C) · Seizures (Section D) · Sepsis (Section E) · Cephalhaematoma (Section F) · Cerebral haemorrhage (Section G) · Injuries (Section H) · Kernicterus (Section I) Feeding difficulties (Section J) · Neonatal death (Section K) If No, were any of the above conditions suspected but not confirmed on investigation? Yes No If Yes, please give details If No, please tick the blue box on the front page and give any relevant details below

Job title of person completing this form
