

The provision of services in the UK for UK armed forces veterans with post-traumatic stress disorder (PTSD): a rapid evidence review

Thank you for agreeing to participate in an information gathering exercise to inform our work on the above project.

Introduction

This project is being undertaken as part of a programme of work commissioned by the National Institute of Health Research (NIHR) Health Services and Delivery Research (HS&DR) Programme. For more information, see <http://www.york.ac.uk/crd/research/service-delivery/>.

We are requesting your help to provide information about the current provision of services in the UK for UK armed forces veterans with PTSD. This will inform the subsequent stages of the project where we aim to establish which models of care may be effective, indicate treatments that show promise and signpost where further research may be needed.

Please complete below and email to jane.dalton@york.ac.uk by **Monday 12th December 2016**.
