Trial ID	Sponsor/institution	Population	Intervention/comparators	Outcomes	Status
SLIT trials					
NCT01061203	ALK-Abelló	1000 children (5–12 years)	Grazax tablet vs placebo	Evaluation of allergy and asthma symptoms (5 years) QoL AEs	Active, not recruiting Start date: January 2010 Expected completion: September 2015
NCT00623701	Allergopharma Joachim Ganzer KG	226 adults	High-dose (40 µg) Allerslit forte vs placebo	SMS	Active, not recruiting Start date: March 2008 Expected completion: February 2012
NCT00264459	Allergopharma Joachim Ganzer KG	483 adults	Grass pollen mixture vs placebo	Not stated	Active, not recruiting Start date: February 2003 Expected completion: September 2012
NCT00841256	Allergopharma Joachim Ganzer KG	Children (number enrolled not stated)	Grass pollen allergen extract vs standard symptomatic treatment plus placebo	Change of SMS AEs	Active, not recruiting Start date: April 2009 Expected completion: not stated
NCT00812799	Artu Biologicals	374 adults	Sublingual oralgen vs placebo	Combined SMS SS	Active, not recruiting Start date: December 2008 Expected completion: December 2011
NCT00824447	Artu Biologicals	356 adults	Oralgen vs placebo (dose comparison study)	Rhinocconjunctivitis Rescue medication usage RQLQ Proportion symptom-free days Global evaluation Tolerability and AEs	Completed
NCT00537342	Laboratorios LETI, SL	83 Adults	Modified extract <i>Olea europaea</i> vs placebo	SS MS RQLQ Analogue visual scale AEs	Completed

Trial ID	Sponsor/institution	Population	Intervention/comparators	Outcomes	Status
NCT01012882	Roxall Medizin	120 adults	Allergen extract vs placebo	SMS AEs, RQLQ Clinical global improvement	Not yet open for recruitment Start date: November 2011 Estimated completion: February 2013
NCT00550550	Schering-Plough	450 children	SCH697243 (<i>P. pratense</i> extract) vs placebo	Combined rhinoconjunctivitis daily SS and daily MS	Completed
NCT00562159	Schering-Plough	450 adults	SCH697243 (<i>P. pratense</i> extract) vs placebo	Combined daily SS and daily MS Average daily SS Average daily MS Average weekly rhinoconjunctivitis QoL score	Completed
NCT00803244	Stallergènes	420 adults and adolescents (12–65 years)	Grass pollen tablet vs placebo	Average adjusted SS SSs MSs Global patient evaluation Safety	Completed
NCT00955825	Stallergènes	473 adults	Grass pollen allergen extract vs placebo	Average combined SSs and MSs Average rhinoconjunctivitis TSS Average rescue MS Proportion of symptom-controlled days Average adjusted SS	Completed
SCIT trials					
NCT00263601	Allergopharma Joachim Ganzer KG	150 adults	Grass pollen allergoid vs placebo	SMS	Active, not recruiting Start date: November 2001 Expected completion: August 2013
NCT01353755	Allergopharma Joachim Ganzer KG	195 adults and adolescents (12–65 years)	Recombinant <i>Phleum</i> allergens vs placebo (dose comparison study; 2 years' treatment, 1-year follow-up)	Rhinoconjunctivitis SMS AEs	Active, not recruiting Start date: October 2009 Expected completion: August 2016
NCT00263627	Allergopharma Joachim Ganzer KG	Adults (no. enrolled not stated)	Birch pollen allergoid vs placebo	Not stated	Completed

Trial ID	Sponsor/institution	Population	Intervention/comparators	Outcomes	Status
NCT00671268	Allergopharma Joachim Ganzler KG	498 adults	AL0704rP (recombinant major allergens of timothy grass pollens) vs placebo	Change of symptom and MS	Active, not recruiting Start date: March 2008 Expected completion: October 2013
NCT00309036	Allergopharma Joachim Ganzler KG	Adults (no. enrolled not stated)	Recombinant grass pollen vs placebo	Not stated	Active, not recruiting Start date: January 2004 Expected completion: December 2009
NCT00309062	Allergopharma Joachim Ganzler KG	Adults (no. enrolled not stated)	Recombinant birch pollen vs placebo	Not stated	Active, not recruiting Start date: January 2004 Expected completion: October 2009
NCT00916760	Laboratorios Leti, SL	150 adults	Monthly depigoid vs placebo	SS QoL questionnaire Visual scales Asthma SSs MSS AEs and severity Unplanned health-care resource utilisation	Active, not recruiting Start date: February 2008 Expected completion: January 2013
NCT00916422	Laboratorios Leti, SL	150 adults	<i>P. pratense</i> extract vs placebo	Symptoms and medications score RQLQ Visual scales Asthma SSs MSS AEs Severity of AEs Unplanned health-care resource utilisation	Active, not recruiting Start date: January 2008 Expected completion: December 2012

Trial ID	Sponsor/institution	Population	Intervention/comparators	Outcomes	Status
NCT00831025	Laboratorios Leti, SL	150 adults	Modified extract of <i>Olea europaea</i> pollen vs placebo	MS RQLQ VASS	Active, not recruiting Start date: January 2008 Expected completion: December 2012
NCT01012752	Roxall Medizin	150 adults	Modified allergen extract vs placebo	SMS Safety of treatment, AEs RQLQ Clinical global improvement	Not yet recruiting Start date: November 2012 Expected completion: January 2014
SLIT vs SCIT trials					
NCT01335139	University of California, San Francisco, CA	90 adults	Three-year study of Grazax + SCIT placebo vs Alutard SQ + SLIT placebo vs SCIT placebo + SLIT placebo	Use of rescue medications Hay fever severity score QoL Weekly visual analogue SS	Recruiting Start date: March 2011 Estimated completion: September 2014
TSS, total symptom score.
