Supporting Looked After Children and Care Leavers In Decreasing Drugs, and alcohol [SOLID]

Initial contact form

Doc 16: SOLID Trial: Young people initial contact, assent and CRAFFT form Version 1.0, 23.03.2016

Are you 12-20, in care or a care leaver in Newcastle, Durham or Teesside? YES? Perhaps you'd like to help us?

Hi, your local authority is asking all young people aged 12-20 years who are Looked After Children or Care Leavers to fill out the following form about their drug and alcohol use.

Your information will be held safely at the University of Newcastle.

Your local authority, together with the Universities of Newcastle, Teesside and Birmingham are working to find out how best to support Looked After Children and Care Leavers around their drinking and drug use and your ideas will help.

What do I do next?

- If you are happy to be contacted by our team, please fill out your name and contact details on page 1 of the enclosed form. Then please fill out the questionnaire on page 2 & 3 and send it all back to us in the envelope provided. If you don't want to give us your name, please fill out pages 2 & 3 and just tell us you age, sex and the area that you live.
- Your social worker can help you fill out the form if you'd like. But if you don't want your social worker to know your answers just fill in the form and put it in the envelope.
- Depending on the answers you give, we may contact you to tell you about our study and ask you to take part.

Page 1: Fill in and post back! Your Name • Your Age • Where you live: (tick) - Children's home Foster Care or with a relative - Other • Best way of contacting you - Mobile number - Email: - Other..... Best time to contact you? • I'm happy to be contacted by the research team (Initial) Are you happy for us to contact your parent/guardian? Yes Signed • Date:

What are the possible benefits of taking part?

Although we cannot promise that you will benefit directly from this study, we think the study will give you the chance to talk openly about you alcohol and drug use.

What are the possible risks of taking part?

We do not see any risks for you taking part in this study. But it will take up a bit of your time.

If you have any questions or concerns then please contact me at the university

Either phone 07969852293 or text.

You can also email us at solid@newcastle.ac.uk.

Supporting Looked After Children and Care Leavers In Decreasing Drugs, and Alcohol [SOLID]

Information leaflet young people 12-14 years

Doc 17: SOLID Trial: Information leaflet YP 12-14 years Version 1.0, 23:03.2016

Are you 12-14 and in Care in Newcastle, Durham or Teesside? YES? Perhaps you'd like to help us!

We are doing a research study as we want to understand how to support Looked After Children and Care Leavers to decrease their alcohol and/or drug use.

Why have I been invited?

We think you will have important ideas about how we can support Looked After Children and Care Leavers to decrease their drug and alcohol use.

Do I have to take part?

No. Taking part in this study is entirely voluntary and even if you agree to take part, you can still change your mind at any time, without providing a reason and without your care being affected.

Will my taking part in this study be kept confidential?

If you tell the researcher something that raises concern about your safety, we have a duty to tell your social worker and carer.

What will happen if I take part?

If you are happy we will arrange a time to come to your home and ask you some questions about yourself, your health, your drinking and drug use.

You will receive a £10 gift voucher for your time after answering the questions.

Some young people will be contacted to talk about their drinking and/or drug use with a drug and alcohol worker. The young people that will see a drug and alcohol worker will be chosen randomly—a bit like throwing a dice. You will meet with the drug and alcohol worker up to six times. Some young people will be invited to bring a friend or a professional along with them for support.

We will voice record appointments to see if the worker carried out the session as planned.

12 months from today we'll come back and ask you more questions about your drinking and drug use and your health. You'll receive another £10 gift voucher for your time at this point.

If you are happy to take part in the study then please sign the attached assent form and send it back with your parent/guardians consent form.

Who is funding and organizing the research?

The study is funded by the NHS research arm, the National Institute for Health Research (NIHR) and is sponsored by Newcastle University.

We're happy to send you a report at the end of the projectif you are interested. The study will be printed in academic journals and presented at conferences.

For local support contact:

Thank you....

for taking the time to read this leaflet. Please ask us to answer any questions or concerns you may have about the project.

If you have any concerns about the study you can contact the senior doctor running the study (Dr Raghu Lingam) or an independent person at the University (ProfessorJudith Rankin).

Any suggestions or complaints about the study, or about how you were treated will be dealt with, in writing, within 7 working days. They should be made in writing or by email to Dr Raghu Lingam at the address below.

Supporting Looked After Children and Care Leavers In

Decreasing Drugs, and alcohol
[SOLID]

Information Leaflet

(Young People 15- 20 years)

NHS National Institute for Health Research

Doc 18: SOLID Trial: Information leaflet: (Young People 15 20 years), Version 1.0, 23.03.2016

Are you aged 15-20 and in care in Newcastle, Durham or Teesside? YES? Perhaps you'd like to help us?

We are doing a research study as we want to understand how to support Looked After Children and care leavers to decrease their alcohol and/or drug use.

This leaflet is for you to keep. Please feel free to ask questions if there is anything you are unsure about or ifyou would like further information.

Why have I been invited?

We think you will have important ideas about we can support Looked After Children and care leavers to decrease their drug and alcohol use.

Do I have to take part?

No. Taking part in the research is entirely voluntary and even if you agree to take part, you can still change your mind at any time, without providing a reason and without your care being affected.

What will happen if I take part?

If you would like to take part we will ask you to fill in a assent/consent form. If you are under 16 your parent/guardian will also have to complete a consent form.

If you are happy we will arrange a time to come to your home. We will ask you some questions about yourself, your health, your drinking and drug use. You will receive a £10 gift voucher for your time answering thequestions.

Some young people will then be invited to meet with a drug and alcohol worker to talk about their drinking and/ or drug use. The young people that will see a drug and alcohol worker will be chosen randomly—a bit like throwing a dice.

The young people will meet the drug and alcohol worker for up to six visits. Some young people will be invited to bring a friend or professional along with them. For those who do see a drug and alcohol worker, we will voice record visits to see if the worker carries out the sessions as planned.

We will then arrange to see you again 12 months later to ask you more questions about your drinking and drug use and your health. You'll receive another £10 gift voucher for your time at this point.

Will my taking part in this study be kept confidential?

Yes. Your data will be kept safe, your name will not be used.

We will keep your information confidential. This means no one other than the research team will find out what you have told us.

Confidentiality can only be broken, without your consent, in very exceptional cases. *Usually this is if the researcher sees or is told something which raises serious concern for your personal safety or the safety of others.*

What are the possible benefits of taking part?

Although we cannot promise that you will benefit directly from this study, we think the study will give you the chance to talk openly about you alcohol and drug use. The information that you give will be used to help understand how to support Looked After Children and care leavers to change their drinking and/or drug use.

What are the possible risks of taking part?

We do not see any risks for you taking part in this study. But it will take up a bit of your time. Some people do not like talking about their experiences whilst others find this helpful.
